PROFILE

Completed a Bachelor's in SETU Carlow. Experience coding in C++, C#, Python, JavaScript, HTML and CSS. Worked as a Test Engineer for UNUM inside an agile team environment, which required tools like Vtest, Postman and Selenium to complete unit and API testing. Worked in teams remotely and in-person to complete multiple projects and games. Used cloud services like Azure and AWS to create game server databases for my projects. Enjoy coding games and programming a wide range of software in my spare time.
